OBJECTIVE

Computer Science Engineering graduate with practical experience in Java, ReactJS, Node.js, Express.js, MySQL, and MongoDB. Proficient in building full-stack applications, REST APIs, and database-driven solutions. Passionate about software development, problem-solving, and continuous learning. Seeking a Software Developer role to contribute to innovative projects and grow as a technology professional.

EDUCATION

2022 - 2026	Mepco Schlenk Engineering College, Sivakasi Bachelor of Engineering - Computer Science and Engineering	CGPA : 6.74
2020 - 2022	S.H.N.V.Higher Secondary School ,Sivakasi HSC	Marks : 74.3%
2019 - 2020	S.H.N.V.Higher Secondary School ,Sivakasi SSLC	Marks : 80.3%

PROJECTS

December - 2025	Movie Ticket Booking System - MERN - Built a full-stack web application using MongoDB, Express.js, ReactJS, and Node.js - Implemented REST APIs for movie listings, seat selection, and booking management - Designed responsive UI using React components and state management - Integrated MongoDB database for persistent booking and user data
November - 2025	Quiz Generator A basic Quiz Generator application developed using Java in Android Studio that allows users to attempt multiple-choice quizzes. Implemented core quiz logic including question display, answer validation, and score calculation. Used local storage (SQLite) to store quiz questions and retrieve results.
December - 2023	College Management System – Java and MySQL - Developed a centralized system to manage student, staff, course, attendance, and examination records - Automated administrative processes to reduce manual work and paperwork - Designed and implemented JDBC-based database integration with MySQL to manage student and course records efficiently.
July- 2023	Parking Lot Management System – C++ using OOPS concept - Built a command-line application for parking lot and vehicle record management - Managed 500+ vehicle records efficiently using structured OOP design. - Applied object-oriented programming concepts for structured code design.

TECHNICAL SKILLS

- Programming Languages** : Java, C, C++, Python
- Web Technologies** : HTML, CSS, JavaScript, ReactJS
- Backend & Databases** : Node.js, Express.js, RESTs API, MySQL, MongoDB
- Core CS Concepts** : Object-Oriented Programming (OOP), Basic Data Structures, Basic Database Design
- Tools** : Git, GitHub, VS Code, Android Studio
